1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly, or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees, or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents, and employees, and agrees to save them harmless from any and all claims, demands, lawsuits, or liability whatsoever for any loss, damage, injury, or death, including all costs and expenses incident thereto, by reason of the foregoing. to appear and defend. A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

1.06 RULES OF CONSTRUCTION. In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council, with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

1.07 EXTENSION OF AUTHORITY. Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate, or a duly authorized designee of said officer or employee.

1.08 AMENDMENTS. All ordinances that amend, repeal, or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

It is unlawful for any unauthorized person to change or amend, by additions or deletions, any part or portion of this Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with this Code of Ordinances in any manner that will cause the law of the City to be misrepresented.

1.11 SEVERABILITY. If any section, provision, or part of this Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of this Code of Ordinances as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure, or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant, or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

HAZARDOUS SUBSTANCE SPILLS

36.01 Purpose

36.02 Definitions

36.03 Cleanup Required

36.04 Liability for Cleanup Costs

36.05 Notifications

36.06 Police Authority

36.07 Liability

36.01 PURPOSE. In order to reduce the danger to the public health, safety, and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal, and cleanup of hazardous substance spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove, or dispose of a hazardous substance.

(Code of Iowa, Sec. 455B.381[1])

2. “Hazardous condition” means any situation involving the actual, imminent, or probable spillage, leakage, or release of a hazardous substance onto the land, into a water body in the State, or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381[2])

3. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under Section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. “Responsible person” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

(Code of Iowa, Sec. 455B.381[7])

36.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking, or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted

into the air or discharged into any waters, including groundwaters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety, and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within 30 days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Council and immediately seek any State or federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable to the City for all of the following:

1. The reasonable cleanup costs incurred by the City or the agents of the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.
2. The reasonable costs incurred by the City or the agents of the City to evacuate people from the area threatened by a hazardous condition caused by the person.
3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction, or loss.
4. The excessive and extraordinary cost incurred by the City or the agents of the City in responding at and to the scene of a hazardous condition caused by that person.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the State Department of Natural Resources and the County Sheriff of the occurrence of a hazardous condition as soon as possible but not later than six hours after the onset of the hazardous condition or discovery of the hazardous condition. The County Sheriff shall immediately notify the Department of Natural Resources.
2. Any other person who discovers a hazardous condition shall notify the County Sheriff, which shall then notify the Department of Natural Resources.

36.06 POLICE AUTHORITY. If the circumstances reasonably so require, the law enforcement officer or an authorized representative may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and
2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

No person shall disobey an order of any peace officer issued under this section.

36.07 LIABILITY. The City shall not be liable to any person for claims of damages, injuries, or losses resulting from any hazardous condition, unless the City is the responsible person as defined in Section 36.02(4).

6. Direct Crossing. An ATV or UTV may make a direct crossing of a highway that is not part of the interstate road system provided all of the following occur:

(Code of Iowa, Sec. 321I.10[5])

A. The crossing is made at an angle of approximately 90 degrees to the direction of the highway and at a place where no obstruction prevents a quick and safe crossing.

B. The ATV or UTV is brought to a complete stop before crossing the shoulder or main traveled way of the highway.

C. The driver yields the right-of-way to all oncoming traffic which constitutes an immediate hazard.

D. In crossing a divided highway, the crossing is made only at an intersection of such highway with another public street or highway.

E. The crossing is made from a street, roadway, or highway on which the ATV or UTV is authorized to operate to a street, roadway, or highway on which such vehicle is authorized to operate.

75.06 NEGLIGENCE. The owner and operator of an ATV, UTV, or snowmobile are liable for any injury or damage occasioned by the negligent operation of the ATV, UTV, or snowmobile. The owner of an ATV, UTV, or snowmobile shall be liable for any such injury or damage only if the owner was the operator of the ATV, UTV, or snowmobile at the time the injury or damage occurred or if the operator had the owner's consent to operate the ATV, UTV, or snowmobile at the time the injury or damage occurred.

(Code of Iowa, Sec. 321G.18 and 321I.19)

75.07 ACCIDENT REPORTS. Whenever an ATV, UTV, or snowmobile is involved in an accident resulting in injury or death to anyone or property damage amounting to \$1,500.00 or more, either the operator or someone acting for the operator shall immediately notify a law enforcement officer and shall file an accident report, in accordance with State law.

2. Sizes and Location of Taps. All mains six inches or less in diameter shall receive no larger than a three-fourths inch tap. All mains over six inches in diameter shall receive no larger than a one-inch tap. Where a larger connection than a one-inch tap is desired, two or more small taps or saddles shall be used, as the Superintendent shall order. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.15 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approval. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. 1. The location and description of the property to be connected with the sewer system.
2. The purpose for which the sewer is to be used.
3. Plans, specifications, or other information considered pertinent.

Any sewer connection permit may be revoked at any time for a violation of these chapters.

DRAFT

96.02 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

96.03 EXCAVATIONS. All trench work, excavation, and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

96.04 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. **Old Building Sewers.** Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. **Separate Building Sewers.** A separate and independent building sewer shall be provided for every occupied building. Each property shall have their own individual connection to the sanitary sewer system. All systems in place on August 7, 2014, shall be grandfathered in and shall not require to replace their hook up between their building and the sewer main. However, effective on August 7, 2014, any properties with a shared line that require repair between the building and the sewer main shall be required to disconnect the shared line and install a new system from the building to the main to provide for one connection per building.

3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and applicable rules and regulations of the City. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.
4. Water Lines. When possible, building sewers should be laid at least 10 feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least 12 inches above the top of the building sewer.
5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four inches.
6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:
 - A. Recommended grade at one-fourth inch per foot.
 - B. Minimum grade of one-eighth inch per foot.
 - C. Minimum velocity of two feet per second with the sewer half full.
 - D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.
7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation low to the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.
8. Sewage Lifts. In all buildings, when any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved mechanical means and discharged to the building sewer.
9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:
 - A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
 - B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
 - C. Ductile iron water pipe – A.W.W.A. C-151.
 - D. P.V.C. – SDR26 – A.S.T.M. D-3034.
 - E. A tracer wire shall be installed running parallel with the pipe on all new and replacement sewer service lines. The type of wire to be used, the depth that it is to be placed and other installation details will be as approved by the Superintendent.
10. Bearing Walls. No building sewer shall be laid parallel to or within three feet of any bearing wall that might thereby be weakened.
11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. **Unstable Soil.** No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. **Preparation of Basement or Crawl Space.** No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.05 INTERCEPTORS REQUIRED. Grease, oil, sludge, and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand, or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. **Design and Construction.** All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. **Construction Standards.** The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. **Maintenance.** All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.06 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.07 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid underground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent

refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.08 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer, from the main to the building served, shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.09 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within 30 days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

97.07 Control Manholes
97.08 Testing of Wastes

97.01 STORMWATER. No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Stormwater and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to be in the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described wastes or wastes into any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides (CN) in excess of two milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

5. Excessive B.O.D., Solids or Flow.
 - A. Any waters or wastes:
 - (1) Having a five-day biochemical oxygen demand greater than 300 parts per million by weight; or
 - (2) Containing more than 350 parts per million by weight of suspended solids; or
 - (3) Having an average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent.
 - B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to:
 - (1) Reduce the biochemical oxygen demand to 300 parts per million by weight; or
 - (2) Reduce the suspended solids to 350 parts per million by weight; or
 - (3) Control the quantities and rates of discharge of such waters or wastes.

C. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent, and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than 150°F (65°C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32°F and 150°F (0°C to 65°C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution, whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials that exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration, or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES; POWERS OF SUPERINTENDENT. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage

works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary ladders and other appliances in the building sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be accessible and safely entered and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.)

CHAPTER 99

SEWER USE CHARGE

99.01 Purpose	99.08 Responsibility for Increased Costs
99.02 Definitions	99.09 Application
99.03 Use of Funds	99.10 Payment of Bills
99.04 Accounts Designated	99.11 Lien for Nonpayment
99.05 Year-End Balances	99.12 Review of User Charge System
99.06 Charges Based on Usage	99.13 Notification of Rate Change
99.07 Temporary Discontinuance	

99.01 PURPOSE. It is determined and declared to be necessary and conducive to the protection of the public health, safety, welfare, and convenience of the City to collect charges from all users who contribute wastewater to the City's treatment facilities now or may in the future. The proceeds of such charges so derived will be used for the purpose of operating, maintaining, and retiring the debt for such public wastewater treatment facilities.

99.02 DEFINITIONS. For purposes of this chapter, the following terms are defined:

1. "Normal domestic wastewater" means wastewater that has a BOD₅ concentration of not more than 290 mg/l, a suspended solids concentration of not more than 240 mg/l and an ammonia-N concentration of not more than 50 mg/l.
2. "Operation and maintenance" means all expenditures during the useful life of the wastewater treatment facilities for materials, utilities, and other items which are necessary for managing and maintaining the treatment facilities to achieve the capacity and performance for which such facilities were designed and constructed.
3. "Replacement" means expenditures for obtaining and installing equipment, accessories, or appurtenances which are necessary during the useful life of the treatment facilities to maintain the capacity and performance for which such facilities were designed and constructed. The term "operation and maintenance" includes replacement.
4. "Treatment facilities" means any devices and systems used for the storage, treatment, recycling, and reclamation of municipal sewage, domestic sewage, or liquid industrial wastes. These include intercepting sewers, outfall sewers, sewage collection systems, individual systems, pumping, power and other equipment, and their appurtenances; extensions, improvement, remodeling, additions, and alterations thereof; elements essential to provide a reliable recycled supply such as standby treatment units and clear well facilities; and any facilities, including site acquisition of the land, that will be an integral part of the treatment process or used for ultimate disposal of residues resulting from such treatment (including land for composting sludge, temporary storage of such compost and land used for storage of treated wastewater in land treatment systems before land application); or any other method or system for preventing, abating, reducing, storing, treating, separating, or disposing of municipal waste or industrial waste, including waste in combined stormwater and sanitary sewer systems.
5. "Useful life" means the estimated period during which the treatment facilities will be operated.

6. “User charge” means that portion of the total wastewater service charge which is levied in a proportional and adequate manner for the cost of operation, maintenance, and replacement of the wastewater treatment facilities.

99.03 USE OF FUNDS. The user charge system shall generate adequate annual revenues to pay costs of annual operation and maintenance including replacement and costs associated with debt retirement of bonded capital associated with financing the treatment facilities which the City may by ordinance designate to be paid by the user charge system. The total user charge shall be divided into a portion designated for operation and maintenance including replacement of the treatment facilities and a portion adequate to pay the debt service for the treatment facilities. This chapter shall establish those portions of the total user charge and shall describe a system for allocating said charges between active and non-active users of the system.

99.04 ACCOUNTS DESIGNATED. That portion of the total user charge collected which is designated for operation and maintenance including replacement purposes as established in Section 99.06 shall be deposited in a separate non-lapsing fund known as the *Operation, Maintenance and Replacement Fund* and will be kept in two primary accounts as follows:

1. Operation and Maintenance Account. an account designated for the specific purpose of defraying operation and maintenance costs (excluding replacement) of the treatment facilities.
2. Replacement Account. An account designated for the specific purpose of ensuring replacement needs over the useful life of the treatment facilities. Deposits in the Replacement Account shall be made quarterly from revenue in the amount of \$3,000.00 annually as shown in Exhibit A to file at City Hall.

99.05 YEAR-END BALANCES. Fiscal year-end balances in the Operation and Maintenance Account and the Replacement Account shall be carried over to the same accounts in the subsequent fiscal year, and shall be used for no other purposes than those designated for these accounts. Moneys which have been transferred from other sources to meet temporary shortages in the Operation, Maintenance and Replacement Fund shall be returned to their respective accounts upon appropriate adjustment of the user charge rates for operation, maintenance, and replacement. The user charge shall be adjusted such that the transferred moneys will be returned to their respective accounts within the fiscal year following the fiscal year in which the moneys were borrowed.

99.06 CHARGES BASED ON USAGE. Each user shall pay for the services provided by the City based on use of the treatment facilities as determined by water meters acceptable to the City and as described and set forth below:

1. Usage Charge.
 - A. Minimum Charge. For first 1,000 gallons for all users - \$10.50 monthly.
 - B. Additional Charge. Per each 1,000 gallons or fraction thereafter for all users - \$7.90.
2. Debt Reduction Fee. In addition to the usage charge, each customer shall be charged a debt reduction fee of \$45.00 per month.

99.07 TEMPORARY DISCONTINUANCE. The minimum rate per month will apply for all occupied premises and unoccupied premises. All unoccupied premises where the water is turned off at the curb stop will be billed for the debt reduction fee of \$45.00 only. Shut-off of curb stops can only be completed by authorized City personnel.

99.08 RESPONSIBILITY FOR INCREASED COSTS. Each user which discharges any toxic compounds or pollutants which cause an increase in the cost of managing the effluent or the sludge from the City's treatment facilities or any user which discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance, or replacement of the treatment facilities shall pay for such increased cost. The charge to each such user will be as determined by the responsible plan operating personnel and approved by the Council.

99.09 APPLICATION. The user charge rates established in this chapter apply to all users, whether residential, commercial, industrial, agricultural, or other type of user of the City's treatment facilities, regardless of their location.

99.10 PAYMENT OF BILLS. All sewer user charges are due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.03 of this Code of Ordinances. Sewer service may be discontinued in accordance with the provisions contained in Section 92.04 if the combined service account becomes delinquent, and the provisions contained in Section 92.07 relating to lien notices shall also apply in the event of a delinquent account.

99.11 LIEN FOR NONPAYMENT. Except as provided for in Section 92.06 of this Code of Ordinances, the owner of premises served and any tenant thereof shall be jointly and severally liable for sewer service charges to the premises. Sewer service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

99.12 REVIEW OF USER CHARGE SYSTEM. The City will review the user charge system every two years and revise user charge rates as necessary to ensure that the system generates adequate revenues to pay the costs of operation and maintenance including replacement and that the system continues to provide for the proportional distribution of operation and maintenance including replacement costs among users and any user classes.

99.13 NOTIFICATION OF RATE CHANGE. The City will notify each user at least annually, in conjunction with a regular bill, of the rate being charged for operation and maintenance including replacement of the treatment facilities.

CHAPTER 100

USE AND INSPECTION OF PUBLIC SEWERS

100.01 Purpose

100.02 Compliance Regarding Water Discharge

100.03 Mandatory Compliance for Sump Pump,
Downspout, and Surface Drainage

100.04 Notices

100.05 Sale of Real Property

100.01 PURPOSE. The purpose of this chapter is to establish rules of compliance for the drainage systems of the various tracts of real property located within the City that promote the general health, welfare, and safety of its citizens.

100.02 COMPLIANCE REGARDING WATER DISCHARGE. The drainage systems of many tracts of real property within the City have caused storm and other water to be discharged into the public sanitary sewers. This often results in an overload of the City's sanitary sewer disposal system, which causes flooding of residential basements, sanitary sewage being discharged into local streams without being fully treated, a substantial reduction in the capacity of the waste water facilities, and additional wear and tear on the City's wastewater treatment plant.

100.03 MANDATORY COMPLIANCE FOR SUMP PUMP, DOWNSPOUT, AND SURFACE DRAINAGE.

1. **Duty to Inspect.** The owner of real property shall have the duty to inspect and test each and every tract of real property connected to the City's wastewater facilities, except for mobile homes, located within the City to determine whether said property complies with the sump pump, downspout, and surface drainage provisions of Section 95.04 of this Code of Ordinances. Inspections shall be certified by an inspector approved by the City for such purposes.

2. **Responsibility of Owners.** It is the responsibility of the owner of a tract of real property located within the City and connected to the City's wastewater plant to disconnect and remove from the City's sanitary sewer system all water drainage from the said property by means of sump pumps, downspouts, surface drainage, or hoses by June 1, 2018. It shall further be the responsibility of the owner to schedule an inspection of their property with the City or its designated contractor prior to June 1, 2018.

3. **Certificate of Compliance.** If the tract of real property complies with the provisions of this chapter, as determined by the City or its designated contractor, the owner shall receive from the approved inspector a Certificate of Compliance, which shall be provided to the City and recorded with the County Recorder's office. The City reserves the right to re-inspect any property believed to be out of compliance once a certificate has been issued. Failure to allow the City to re-inspect the property shall result in the costs under Subsection 5(B) of this section to being assessed.

4. **Cost.** The cost of inspecting and testing shall be established by resolution of the Council. All costs of compliance are the responsibility of the owner of the property.

5. Inspections and Failure of Compliance.
 - A. Failure on the part of the owner, tenant, or other person in possession of a tract of real property to allow the City or its designated contractor to inspect and test for compliance of this chapter will be considered in non-compliance after June 1, 2018.
 - B. Failure to comply by June 1, 2018, shall result in an increase in the monthly utility bill for that real estate. Such increase shall continue until compliance is achieved. The amount of the increase shall be \$200.00 per month.
 - C. The City may also consider taking legal action against a property owner who has failed to comply with when such failure causes the City to incur expenses or damages resulting from water that is discharged into the sanitary sewer.
 - D. The City may re-inspect the property after the initial inspection and issuance of a Compliance Certificate. Any person to have re-connected non-approved connections to the sanitary sewer shall be charged with a municipal infraction and subject to a minimum fine of \$750.00 for the initial violation and \$1,000.00 for each subsequent violation.
6. Starting with the effective date of this ordinance through May 31, 2018, property owners may schedule inspections during City business hours to determine whether said property complies with the sump pump, down spout, and surface drainage provisions of this chapter.

100.04 NOTICES.

1. Recording. This chapter shall immediately be placed in a verified notice to be signed by the Clerk and filed with the County Recorder, so that the same shall appear in all real property abstracts of title.
2. Property Owners. Any notices given to owners of real property in regard to this chapter shall be made in writing and may be delivered in person, posted on the front door, or by ordinary mail to the owner's last known address.

100.05 SALE OF REAL PROPERTY. All sales of real property after March 1, 2017, that are located within the limits of the City and are connected to the City's sanitary sewer system, shall be inspected by the City or its designated contractor to determine whether the said property complies with this chapter.

1. If the real property does comply, the City, or designated contractor, shall provide the seller with a verified permit that shows compliance. The cost of inspecting and testing shall be borne by the seller, unless the buyer agrees to pay the cost. If the real property does not comply it shall be placed into compliance prior to the closing of the sale of the real property, and the City or designated contractor, shall re-inspect or retest the discharge of water at that time. The costs associated with any corrections required to consider a property compliant will be paid by the seller, unless the buyer agrees to pay the cost, but shall not be the responsibility of the City.
2. Once the property is found to be in compliance under this section, the City will issue the Certificate of Compliance to be recorded with the County Recorder. Failure to comply with this chapter shall be dealt with as explained in Section 100.03(5), except

that the increase in the monthly utility bill for that real property shall begin on the first day of the month after the closing of the sale.

3. In the event that a property is not in compliance with this chapter, but if weather or availability of contractor does not permit the improvements to be made prior to the scheduled real estate closing, the following requirements shall be complied with before a certificate will be issued:

A. The City receives a copy of the failed inspection checklist (signed and dated) noting the items of non-compliance.

B. The seller shall submit to the City, a formal, written proposal from the contractor hired to complete the work to bring the property into compliance. This proposal will include a time frame in which the work will be completed, but shall not be longer than six months from the date of the non-compliance notice.

C. The seller and buyer agree to hold 125 percent of the amount of money set forth in the written proposal in escrow until the work is completed. With proof from the closing agent that sufficient funds have been escrowed, the transaction can close and a Certificate of Completion will be issued.

D. The City receives a copy of a signed agreement between the contractor and the party taking responsibility for paying for the corrective work.

E. The City receives a written explanation of the work to be performed that will clearly identify the proposed work to be done in order to bring the property into compliance.

4. The City, or designated contractor, shall re-inspect or request the discharge of water at its earliest convenience after the work is completed. The cost for this re-inspection shall be borne by the seller, unless the buyer agrees to pay the cost. If the property is found to be non-compliant after such a date, the new property owner will be subject to the penalty provisions in this chapter.

5. Once a property has passed this inspection, the next time it changes ownership, the property shall either be re-inspected for compliance, or the seller shall provide to the buyer a certification that the property is in compliance.

¹ Deep and shallow wells, as defined in IAC 567-40.2(455B): A deep well is a well located and constructed in such a manner that there is a continuous layer of low permeability soil or rock at least five feet thick located at least 25 feet below the normal ground surface and above the aquifer from which water is to be drawn. A shallow well is a well located and constructed in such a manner that there is not a continuous layer of low permeability soil or rock (or equivalent retarding mechanism acceptable to the department) at least five feet thick, the top of which is located at least 25 feet below the normal ground surface and above the aquifer from which water is to be drawn.

² The separation distances are dependent upon two factors: the type of piping that is in the existing sewer or drain, as noted in the table, and that the piping was properly installed in accordance with the standards.

³ Solid wastes are those derived from the treatment of water or wastewater. Certain types of solid wastes from water treatment processes may be land-applied within the separation distance on an individual, case-by-case basis.

151.01 PURPOSE. The purpose of this chapter is to beautify and preserve the appearance of the City by requiring street trees to be uniformly located and maintained.

151.02 DEFINITIONS. For purposes of this chapter, the following terms are defined:

1. “Park trees” means trees, shrubs, bushes, and all other woody vegetation located in public parks and other public places.
2. “Street trees” means trees, shrubs, bushes, and all other woody vegetation located on the parking.

151.03 PLANTING RESTRICTIONS.

1. No tree shall be planted in any parking or public right-of-way without the approval of the Tree Board.
2. No tree shall be planted closer than 10 feet to any fire hydrant. No ornamental tree, shrub, fence, or lawn ornament shall be planted or placed within a radius of six feet around a fire hydrant.
3. No trees shall be planted in the area adjacent to a street corner formed by the nearest intersecting curb lines and a straight line connecting said intersecting curb lines at a point of 35 feet distant along each curb line.
4. No street trees shall be planted closer than 10 feet to any fire hydrant.
5. No street trees, other than those species designated as small trees, may be planted under or within 10 lateral feet of any overhead utility wire or over within five lateral feet of any underground water line, sewer line, transmission line, or other utility line.
6. All street trees shall be of sufficient size to warrant satisfactory results and withstand the abuse to which street may be subject.
7. All street trees shall have a comparatively straight trunks, well-developed leaders and top and root characteristics of the species or variety showing evidence of proper nursery pruning. All trees must be free of insect, disease, mechanical injuries, and other objectionable features at the time of planting. To compensate for any serious loss of roots, the top of the tree should be reduced by thinning or cutting back as determined by the growth, characteristics of the tree species. The leader shall not be cut off in such trimming.
8. All trees now or hereafter planted in any street, avenue, or highway that interfere with the making of any improvements thereon or with travel or become

dangerous shall be removed by order of the Tree Board. Any tree planted in any street, avenue, or highway shall be planted upon such condition and subject to such removal.

151.04 TRIMMING RESTRICTIONS.

1. All dead and diseased wood shall be removed.
2. All limbs one inch in diameter or more must be precut to prevent splitting. All limbs or branches that might injure the tree or adjacent property, streets, or sidewalks shall be lowered by ropes.
3. A crossed or rubbing branch shall be removed where practicable, but removal shall not leave large holes in the general outline of the tree. Crossed or rubbing branches may be cabled apart.
4. All cuts, old or new, one inch in diameter or more, shall be painted with an approved tree wound dressing. On old wounds, only exposed wood shall be painted.
5. Where there is a danger of transmitting disease by tools, said tools shall be disinfected with alcohol before use on another tree.
6. The owner of the abutting property shall be responsible for trimming of street trees on the adjacent parking and shall keep the street trees trimmed so that all branches will be at least 15 feet above the surface of the street and eight feet above the sidewalks.
7. The owner of the abutting property shall, upon 20 days' notice in writing, remove all dead, diseased, or dangerous trees, or broken or decayed limbs which constitute a danger to the public safety or property or constitute a nuisance.
8. It is unlawful to cut in any manner a tree in the street, avenue, highway, or public place, unless such trimming or cutting shall be done under the supervision of the City.

151.05 PUBLIC TREE CARE. The City has the right to plant, prune, maintain, and remove trees, plants, and shrubs within lines of all streets, alleys, avenues, lanes, squares, and public grounds, as may be necessary to ensure public safety or to preserve or enhance the symmetry and beauty of such public grounds. The City may remove or cause or order to be removed any tree or part thereof which is in an unsafe condition or which or which by reason of its nature is injurious to sewers, electric power lines, gas lines, water lines, or other public improvements, or is infected with any injurious fungus, insect, or other pest in the same manner as provided in Section 151.07.

151.06 TREE TOPPING. It is unlawful as a normal practice for any person or City department to top any street tree, park tree, or other tree on public property. Topping is defined as the severe cutting back of limbs to stubs larger than three inches in diameter within the tree's crown to such a degree so as to remove the normal canopy and disfigure the tree. Trees severely damaged by storms or other causes, or certain trees under utility wires or other obstructions where other pruning practices are impractical, may be exempted from this section at the determination of the Tree Board. No topping shall occur without the prior consent of the Tree Board.

151.07 REMOVAL OF DEAD OR DISEASED TREES. The City has the right to cause the removal of any dead or diseased trees on private property within the City when such trees constitute a hazard to life and property, or harbor insects or diseases which constitute a potential threat to other trees within the City. The Tree Board will notify in writing the owners of such

trees. Removal shall be done by said owners at their own expense within 20 days after the date of service of notice. In the event of failure of owners to comply with such provisions, the City shall have the authority to remove such trees and charge the cost of removal on the owner's property tax notice.

151.08 REMOVAL OF STUMPS. All stumps of street and park trees shall be removed below the surface of the ground so that the top of the stump does not project above the surface of the ground.

155.01 PURPOSE. The purpose of this chapter is to provide and establish reasonable rules and regulations for the erecting and altering of buildings in the City, as well as the use and occupancy of such buildings.

(Code of Iowa, Sec. 361.1)

155.02 BUILDING OFFICIAL. The Mayor or the Building Official and is responsible for the administration and enforcement of this chapter.

155.03 PERMIT REQUIRED. No building or other structure shall be erected or altered within the City without first receiving a permit. A permit is required for work such as new homes, additions, patios, decks, porches, garages, accessory buildings, or for work that would change the outside dimensions of an existing building. A permit is not required for interior remodeling, roofing, window replacement, or siding a building. The construction of a fence does not require a building permit, but the construction of such fence shall comply with standards established in this chapter.

155.04 APPLICATION. Application shall be made in writing, filed with the Building Official and contain the following information:

1. Name. The name and address of the applicant.
2. Location. The street address and full legal description of the property.
3. Proposed Work. The nature of work proposed to be done.
4. Use. The use for which the structure is or will be used.
5. Plans. Application for permits shall be accompanied by such drawings of the proposed work, including such floor plans, sections, elevations and structural details, as the Building Official may require. There shall also be filed a diagram or sketch in a form and size acceptable to the Building Official with all dimensions figured, showing accurately the size and location of the lot to be built upon, and the location and size of the building or structure to be erected or altered.

155.05 FEE. A permit fee, as established by resolution of the Council, shall be paid to the City prior to issuance of the permit. In the event that work has commenced without first obtaining a permit, the permit fee shall be doubled. The payment of such double fee shall not relieve any persons from fully complying with the requirements of this chapter in the execution of the work.

155.06 AMENDMENTS. Nothing shall prohibit the filing of amendments to an application or to a plan or other record accompanying same, at any time before the completion of the work for which the permit was sought. Such amendments, after approval, shall be filed with and be deemed a part of the original application.

155.07 COMPLETION OF EXISTING BUILDINGS. Nothing contained in this chapter shall require any change in the plans, construction, or size of a building for which construction was started before the effective date of this chapter; provided, however, construction under such circumstances shall be completed within one year after the effective date of this chapter. Extensions to this time frame may be granted by an affirmative vote of three-fourths of all of the members of the Council.

155.08 APPLICATION APPROVED. It is the duty of the Building Official to examine applications for permits within a reasonable time after filing. If, after examination, the Building Official finds no objection to the same and it appears that the proposed work will be in compliance with the laws and ordinances applicable thereto, the Building Official shall forward findings to the Council for its approval or disapproval.

155.09 ACTION BY COUNCIL. After receiving the findings of the Building Official, the Council shall, within a reasonable time, either approve or disapprove the application. If disapproved, the Council shall state its reasons for disapproval and notify the applicant of same. If approved, the Council shall instruct the Building Official to issue the building permit to the applicant. Said permit shall be issued in duplicate, one copy for the applicant and one copy to be retained in the City records.

155.10 EROSION CONTROL. When a land disturbing activity, as defined by the *Code of Iowa*, is to occur as a part of a project for which a permit hereunder is sought, no permit shall be issued unless there is on file with City a soil erosion control plan which covers the proposed project and is approved by the Soil Conservation District Commissioners.

(Code of Iowa, Sec. 161A.64)

155.11 RESTRICTIONS. No permit for the erection or alteration of a building or similar structure shall be granted unless it definitely appears that such erection or alteration shall not cause or be the source of the following:

(Code of Iowa, Sec. 414.24)

1. Noise. Any undue noise.
2. Electrical Interference. Any undue radio or television interference.
3. Odors. Any offensive odors.
4. Refuse. Any offensive or unsightly refuse.
5. Smoke. Any offensive or undue smoke.
6. Fire Hazard. Any fire hazard.

7. Appearance. Any unsightliness due to the appearance of any building or structure on the premises.
8. Congestion. Any undue gathering, congregating, parking of cars, or undue congestion of people or traffic.
9. Other. Any effect that will be obnoxious, offensive, dangerous, or injurious to the health, welfare, and safety of citizens.

155.12 CONDITION OF THE PERMIT. All work performed under any permit shall conform to the approved application and plans, and approved amendments thereof. The location of all new construction as shown on the approved plan, or an approved amendment thereof, shall be strictly adhered to. It is unlawful to reduce or diminish the area of a lot or plot of which a plan has been filed and has been used as the basis for a permit, unless a revised plan showing the proposed change in conditions shall have been filed and approved, provided that this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

155.13 POSTING OF PERMIT. A copy of the permit shall be kept on the premises open to public inspection during the prosecution of the work and until the completion of same. The Building Official may require a certified copy of the approved plans to be kept on the premises at all times from the commencement of the work to the completion thereof. The Building Official shall be given at least 24 hours notice of the starting of work under a permit.

155.14 REVISION. The Building Official may revoke a permit or approval issued under the provisions of this chapter in any case where there has been any false statement or misrepresentation as to material facts in the application or plan which the permit or approval was based.

155.15 PERMIT VOID. The permit becomes null and void if work or construction authorized is not commenced within 60 days, or if construction or work is suspended or abandoned for a period of 120 days at any time after work is commenced, or if the work is not completed within the time frame specified in the building permit. Extensions to these time frames may be granted by an affirmative vote of three-fourths of all of the members of the Council.

155.16 RESTRICTED RESIDENCE DISTRICT. The restricted residence district for the City is depicted on the official restricted residence district map that is hereby adopted by reference and is on file in the office of the Clerk.[†]

155.17 PROHIBITED USE. No building or other structure, except residences, schoolhouses, churches, and other similar structures, shall be erected, altered, used, or occupied within the restricted residence district as defined herein without first receiving from the Council a special use permit. No such special use permit shall be issued without the affirmative vote of three-fourths of all of the members of the Council.

(Code of Iowa, Sec. 414.24)

155.18 EXCEPTIONS. The provisions of the preceding section shall have no application to any business, store, shop, or factory existing and in operation in a restricted residence district

[†] **EDITOR'S NOTE:** Ordinance No. 26, adopted by the Council on December 1, 2005, amended the restricted residence district.

on May 19, 1999, except in the matter of reconstruction, alteration, or change in use of the structure.

155.19 PROTEST. No special use permit shall be granted when 60 percent of the residential real estate owners in the restricted residence district who are located within 600 feet of the proposed building or occupancy object thereto, except by a unanimous vote of all of the members of the Council.

155.20 NOTICE REQUIREMENTS. Whenever a restricted residence district is established or its boundaries changed, a public hearing must be held, notice of which shall be given at least seven days in advance of the hearing and in the manner prescribed in Section 18.05 of this Code of Ordinances. In no case shall the public hearing be held earlier than the next regularly scheduled Council meeting following the published notice.

(Code of Iowa, Sec. 414.24)

155.21 FRONT YARD REQUIREMENTS. Within the restricted residence district there shall be a front yard of not less than 25 feet (measured from the front lot line), except as follows:

(Code of Iowa, Sec. 414.24)

1. **Between Existing Buildings.** Where a building is to be erected on a parcel of land that is within 100 feet of existing buildings on both sides, the minimum front yard shall be a line drawn between the closest front corners of the adjacent buildings on the two sides, or
2. **Adjacent to Existing Building.** Where a building is to be erected on a parcel of land that is within 100 feet of an existing building on one side only within the same block, such building may be treated as close to the street line drawn from the closest front corner of the building to a point 25 feet back from the front lot line measured at the center of the lot on which the proposed building is to be erected.
3. **Double Frontage.** Where lots have a double frontage, the front yard as required herein shall be provided on both streets.

155.22 SIDE YARD REQUIREMENTS. Within the restricted residence district no building shall be erected closer than six feet to either side lot line.

(Code of Iowa, Sec. 414.24)

155.23 REAR YARD REQUIREMENTS. Within the restricted residence district there shall be a rear yard provided for each principal building of not less than 25 feet (when measured from the rear lot line) or 40 percent of the depth of the lot, whichever amount is smaller.

(Code of Iowa, Sec. 414.24)

155.24 MINIMUM STANDARDS OF PRINCIPAL STRUCTURE. All structures intended for residential occupancy erected, placed, assembled, or constructed in the City shall comply with the following minimum requirements:

1. **Size.** Each such structure shall have a minimum floor area of 800 square feet with a minimum exterior dimension of 22 feet measured on outside of exterior walls, measured at the narrowest point of such structure. Said dimension shall be exclusive of attached garages, porches, or other accessory structures. The minimum exterior dimension of the structure shall be not less than 22 feet by 36- and one-half feet.
2. **Foundations.** All residential structures shall have a continuous and complete frost-protected perimeter. If the structure is a manufactured home outside of a mobile

home park, it must be placed on a permanent frost-free foundation system that meets the support and anchorage requirements as recommended by the manufacturer or required by the *State Building Code* and must be visually compatible with permanent foundation system of surrounding residential structures.

155.25 GARAGES AND OTHER ACCESSORY BUILDINGS. A garage or other similar accessory building may be built in a rear yard, but such garage or accessory building shall not occupy more than 30 percent of a rear yard. In addition, the garage or accessory building shall not be nearer than five feet to any side or rear lot line, or closer than eight feet to any building unless it is connected thereto. The maximum size of a garage or accessory building shall be 32 feet by 36 feet and 12 feet in height. A garage or accessory building may be built in a side yard if compliance is made with the same side yard requirements as for the principal building. Garages and accessory buildings must be set on a permanent surface of gravel or concrete and anchored down and no closer than 10 feet off the alley.

155.26 FENCES.

1. Materials. Fences shall be constructed of material commonly used for landscape fencing such as masonry block, lumber, chain-link, wrought iron or natural plantings, but shall not include corrugated sheet metal or salvage material. The owner of a fence shall provide and maintain a two-foot setback from adjoining property for the purpose of fence maintenance access.

2. Placement. A fence constructed of materials other than chain-link and which is near a public alley or street shall provide and maintain a setback as determined on a case-by-case basis by the Building Official. Setbacks will be 10 feet from the alley.

155.27 POLE BUILDINGS. Pole buildings (structures with wooden or metal poles as main supports, without a continuing permanent foundation) are allowed in the City, provided that they have cement floors.

155.28 USE OF STOVER PROHIBITED. The use, stacking, or storage of stover around houses, on any real estate or in any buildings, is prohibited in the City.

155.29 VARIANCES. Variances to minimum yard or fence requirements may be approved by securing an affirmative vote of three-fourths of all of the members of the Council. Said variance must include the reason for a variance, why the variance was granted and specific description of the property for which the variance was granted.

155.30 CERTIFYING ORDINANCES. Within 15 days of the effective date of the adoption of any amendments to the provisions of this chapter, the Clerk shall certify such amendment to the County Recorder.

(Code of Iowa, Sec. 380.11)

155.31 ABATEMENT OF VIOLATION. Any building or structure erected, altered, used, or occupied in violation of this chapter shall be determined a nuisance, and the same may be abated by the City or by any property owner within said district in the manner provided for the abatement of nuisances.

APPENDIX TO CODE OF ORDINANCES

USE AND MAINTENANCE OF THE CODE OF ORDINANCES

The following information is provided to assist in the use and proper maintenance of this Code of Ordinances.

DISTRIBUTION OF COPIES

1. **OFFICIAL COPY.** The “OFFICIAL COPY” of the Code of Ordinances must be kept by the City Clerk and should be identified as the “OFFICIAL COPY.”

2. **DISTRIBUTION.** Other copies of the Code of Ordinances should be made available to all persons having a relatively frequent and continuing need to have access to ordinances which are in effect in the City as well as reference centers such as the City Library, County Law Library, and perhaps the schools.

3. **SALE.** The sale or distribution of copies in a general fashion is not recommended as experience indicates that indiscriminate distribution tends to result in outdated codes being used or misused.

4. **RECORD OF DISTRIBUTION.** The City Clerk should be responsible for maintaining an accurate and current record of persons having a copy of the Code of Ordinances. Each official, elected or appointed, should return to the City, upon leaving office, all documents, records and other materials pertaining to the office, including this Code of Ordinances.

(Code of Iowa, Sec. 372.13[4])

NUMBERING OF ORDINANCES AMENDING THE CODE OF ORDINANCES

It is recommended that a simple numerical sequence be used in assigning ordinance numbers to ordinances as they are passed. For example, if the ordinance adopting the Code of Ordinances is No. 163, we would suggest that the first ordinance passed changing, adding to, or deleting from the Code be assigned the number 164, the next ordinance be assigned the number 165, and so on. We advise against using the Code of Ordinances numbering system for the numbering of ordinances.

RETENTION OF AMENDING ORDINANCES

Please note that two books should be maintained: (1) the Code of Ordinances; and (2) an ordinance book. We will assist in the maintenance of the Code of Ordinances book, per the Supplement Agreement, by revising and returning appropriate pages for the Code of Ordinances book as required to accommodate ordinances amending the Code. The City Clerk is responsible for maintaining the ordinance book and must be sure that an original copy of each ordinance adopted, bearing the signatures of the Mayor and Clerk, is inserted in the ordinance book and preserved in a safe place.

SUPPLEMENT RECORD

A record of all supplements prepared for the Code of Ordinances is provided in the front of the Code. This record will indicate the number and date of the ordinances adopting the original Code and of each subsequently adopted ordinance which has been incorporated in the Code. For each supplemented ordinance, the Supplement Record will list the ordinance number, date, topic, and chapter or section number of the Code affected by the amending ordinance. A periodic review of the Supplement Record and ordinances passed will assure that all ordinances amending the Code have been incorporated therein.

DISTRIBUTION OF SUPPLEMENTS

Supplements containing revised pages for insertion in each Code will be sent to the Clerk. It is the responsibility of the Clerk to see that each person having a Code of Ordinances receives each supplement so that each Code may be properly updated to reflect action of the Council in amending the Code.

DRAFT

AMENDING THE CODE OF ORDINANCES

The Code of Ordinances contains most of the laws of the City as of the date of its adoption and is continually subject to amendment to reflect changing policies of the Council, mandates of the State, or decisions of the Courts. Amendments to the Code of Ordinances can only be accomplished by the adoption of an ordinance.

(Code of Iowa, Sec. 380.2)

The following forms of ordinances are recommended for making amendments to the Code of Ordinances:
